### IFOAM Training Manual for Organic Agriculture in Humid Tropics

The training manual contains case studies of organic farming systems, describe successful organic marketing initiatives and offer guidelines for the main crops of the Humid Tropics. With the informative text, transparencies and didactical recommendations the training manuals offer a resource basis for trainers with the idea of encouraging individual adaptation and further development of the material according to need.

**Compiled** by the Research Institute for Organic Agriculture (FiBL), Switzerland  
© IFOAM  
274 Pages
